

Mathew Verdouw, CMT

*B.Eng Comp Sys Hons,
Global CEO / Founder*

Mathew Verdouw is the Founder and Global CEO of Market Analyst Software, a group of international companies dedicated to creating the world's best analytical software for both financial professionals and retail traders.

Since founding the company in 1996 in Australia, Mathew has been travelling the world seeking out the smartest minds in financial analysis and working with them to provide the very best tools for his clients. It has been this approach that has given Mathew such a broad exposure to many different philosophies and strategies in the market.

Mathew combines his engineering background with the almost 20 years of financial analysis to design and improve some of the most unique and powerful ways that analysts can use to examine the market and then package that into a simple interface.

In 2013 Mathew obtained the Chartered Market Technician (CMT) designation from the Market Technicians Association in New York further building on his knowledge of Technical Analysis.

As a captivating speaker, Mathew focuses on giving every listener ideas that they can take away which will make a difference to how they view the market.

With a firm belief that there still are many breakthroughs to be discovered in financial analysis, Mathew and Market Analyst are sure to be on the leading edge of financial analysis for many years to come.
